

# Shape Your Wedding

The complete Wedding Planning System to help you avoid stress and overwhelm... Weddings can be a tonne of work, and you can soon become overwhelmed and easily stressed. Some couples have even compared wedding planning to having a second full time job! So, we've developed a system which comes to your rescue... our SHAPE Wedding Planning System. SHAPE stands for:

## SHAPE Wedding Planning System

### S is for Support

Our Wedding Coordinators go out of their way to help – supporting you over three planning meetings, helping with your floor plans, and making suggestions on getting the most out of your day; they're an invaluable source of support for you! They often go above and beyond the role of a traditional Wedding Coordinator and are available to help answer your questions by phone or email! Another fantastic source of support is our Secret Facebook Group, full of couples who have booked their wedding at The Wellbeing Farm, so you can compare notes. In this group, we provide venue décor ideas, supplier information, and much more!

## H is for Help

**Wedding Wednesdays, Monthly Wedding Open Days, Wedding Feast Experiences** – you only have to wait literally less than a week to get face to face support from our Coordinators. On the day, our Wedding Coordinators help you with your room design, coordinate your suppliers, liaise with your photographer to get that perfect sunset shot, and provide a whole heap of coordination, so you can just relax and enjoy your special day.

## A is for Advice

From a Secret Planning Website, and a very informative Wedding WoW Pack, the written information we give you provides you with 24/7 help and advice. Contents include: wedding timings, room layouts, table layouts, menus, décor ideas, accommodation information, comprehensive supplier lists, and much more...

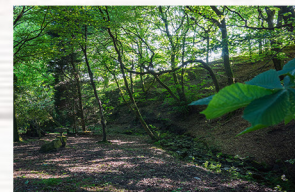

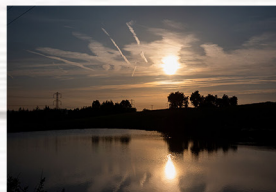

## P is of course for Props and Personalise

Just like Aladdin's cave, our Prop Store is packed full of items to personalise your wedding. Contrary to popular belief, DIY weddings are not low cost, and if you added up the individual hire prices of sweet carts, signs, cake carts, table settings, toilets, gin bars, log slices, lights, games, and everything else, it's not only a tonne of work, but an additional huge cost. A cost in your health (through overwhelm and stress), and a cost in your bank account.

## E is for Experience

From bow tie-wearing llamas and alpacas, to flat cap-wearing donkeys, there are no booking fees for our props. You can personalise your wedding in so many ways... Everything is on site for that fun-filled, quirky, magical wedding. That's including our horse trailer 'Bar 'O' Llama', Llama Boudoir, a whole range of garden games, 3 bars, and our stunning Wedding House with its own lake, woodland, tennis court, and mature gardens...

So now that we've explained our SHAPE Wedding Planning System, let us SHAPE your Wedding! And, we've saved the best 'til last, the whole SHAPE system is, wait for it... FREE! Yes, google the cost of an independent Wedding Planner or Coordinator (which can cost from £500 to £3,000), and you'll see how great our SHAPE Wedding Planning System is – yet another reason for you to book The Wellbeing Farm for your wedding...
