

NOISE REGULATIONS – THE WELLBEING FARM

The Wellbeing Farm

We love music just as much as you, but as the farm is in a rural area and the granting of our licence was dependent upon compliance with noise regulations.

We have a sound limiter which is set to adhere to the noise limits sent by the Environmental Health Department of Blackburn with Darwen Council. If your music exceeds the red level, we WILL ask you to turn the music down.

Please can you also comply with the following:

- To enter and exit the Barn with equipment, there is a rear exit from the carpark which is lit and has a ramp to wheel equipment up.
- The door near the DJ stand must NOT be opened under any circumstances – this is only to be used in the event of an emergency.
